*1 To suit note, ~4% (230V)
*2 To match NE-2 brightness to note, ~680K
*3 Switches must have mains-rated insulation from user
*4 R15/16 should be safety fuse types
*5 C1/4 may be electrolytic or polarized/polyprop type

+340V p-p unsmoothed (230V version) +250VDC (115V version)

To match NE-2 brightness to nixie, ~680K

Switches must have mains-rated insulation from user

R15/16 should be safety fuse types

C1/4 may be electrolytic or polarized/polyprop type

DANGER! Entire Circuit is at mains potential!
